Name Of The Activity	SAY NO TO PLASTIC	
Type Of Activity	GREEN CAMPUS INITIATIVES	
Date And Time Of Activity	26/07/2022	10.30AM
No. Of Participants	42	
Coordinators	DR.RAMESH M	
Description	<p>The principal addressed the gathering and welcomed the guest. The HOD explained and allotted the responsibilities to the concerned coordinators and students.</p> <p>Plastic Pollution is affecting the whole earth, including mankind, wildlife, and aquatic life. With an objective to make everyone realize the harmful impact it has on our lives and urge them to adopt a plastic-free life style. The students undertook a pledge to protect the environment from the toxic plastics by keeping their homes free of plastic materials like Polythene bags, boxes, bottles, glasses, plastic containers, straws etc. and also promised to spread awareness among their friends and relatives. The interactors showed their deep concern towards environment by designing eposters which brought out their reflective ideas on how plastic is polluting oceans, lands, our biodiversity, human health and pristine beauty of the earth. The posters were a perfect blend of imagination and technical acumen.</p> <p>Finally HOD delivered the vote of thanks and all the coordinators & participants were appreciated.</p>

Type Of Activity	GREEN CAMPUS INITATIVES	
Date And Time Of Activity	22/8/2022	11.30AM
No. Of Participants	35	
Coordinators	DR.RAMESH M	
Description	<p>The principal addressed the gathering and welcomed the guest. The HOD explained and allotted the responsibilities to the concerned coordinators and students.</p> <p>According to the statistical results of the Department of Air Quality Protection and Noise Control, Environmental Protection Administration, the impact of domestic mobile pollution sources on air quality accounts for about one-third, while the emission of PM2.5 from various pollution sources accounts for 26% of transport vehicles, which shows that, in order to fight against air pollution and climate change, diesel vehicles and automobiles must undergo low-carbon transformation. To avoid the pollution in the campus use of battery vehicles is advisable</p> <p>Finally HOD delivered the vote of thanks and all the coordinators & participants were appreciated.</p>

Type Of Activity	GREEN CAMPUS INITIATIVES	
Date And Time Of Activity	27/10/2021	10.30AM
No. Of Participants	43	
Coordinators	DR.RAMESH M	
Description	<p>The principal addressed the gathering and welcomed the guest. The HOD explained and allotted the responsibilities to the concerned coordinators and students.</p> <p>Tree plantation is a process where a large number of trees or seedlings are planted for land reclamation or landscaping. Planting large numbers of trees helps to purify the polluted air that we breathe in. Plants play a big role in our ecosystem by maintaining a balance among all the elements that are present in nature. Planting more trees also helps to keep in check the climate conditions of a place. So when you are writing a report on tree plantation, you might include all these. To help you more, here are two reports on tree plantations that will help you write one on your own.</p> <p>Finally HOD delivered the vote of thanks and all the coordinators & participants were appreciated.</p>

Description	<p>The principal addressed the gathering and welcomed the guest. The HOD explained and allotted the responsibilities to the concerned coordinators and students.</p> <p>Walking is the first way of displacement, which has been reduced considerably due to motorized transportation. The communications inside every institution are of great importance in the campuses, especially in major universities that have various buildings and departments with different applications (laboratory, library, restaurants, etc.). This subject is considerable from various aspects. When the Institutional area is not appropriate for pedestrians, the need for motorized transportation increases, which has some consequences as noise, visual and air pollution. Moreover, the roads specialized for automobiles require and occupy much space. In the contrary, pedestrian-oriented developments have great effects on positive environmental and psychological parameters such as social interactions, creating a lively environment. Apart from these factors, walking is crucial for the health and the environment. All these factors cause that pedestrian-oriented developments included in designing educational spaces.</p> <p>Finally HOD delivered the vote of thanks and all the coordinators & participants were appreciated.</p>
